

Assignment 2 (20/07/2026)

1. Make a triangle signal with frequency 440 and make a Wave with duration 0.01 seconds.
 - a. Plot the waveform and the spectrum. What is the amplitude and phase of this component?
 - b. Set `spectrum.hs[0] = 100`. Make a Wave from the modified Spectrum and plot it. What effect does this operation have on the waveform? [hs is the frequency component]
